^{12}-O-tetradecanoylphorbol-13-acetate, 864
h^{230}-kD bullous pemphigoid antigen, characterization of, associated with the detergent-insoluble fraction of cultured keratinocytes, 139
Type VI collagen in diffuse fasciitis, elevated expression of the genes for, 20
Type-B PDGF receptors in normal and psoriatic human fibroblasts, 111

U

Ultrastructural and Immunohistochemical Characterization of Normal Mast Cells at Multiple Body Sites, Weidner N, Austen KF, 26S
Ultrastructural localization, spatial differences in, 309

Ultraviolet
irradiated hairless mouse skin, collagen metabolism in, 994
radiation, monochromatic, 916
Ultraviolet B erythema compared with delayed sensitivity, 763
Ultraviolet-B, induction of ornithine decarboxylase activity, 871
The Use of L-dopa and Carbidopa in Metastatic Malignant Melanoma, Gurney H, Coates A, Kefford R, 85
UV irradiation, influence on the composition of human stratum corneum lipids, 959
UV light, regulation of epidermal cell interleukin-6 production by, 484
UVA
irradiation, in vitro, effects on membrane fatty acids and activities of antioxidant enzymes in human keratinocytes, 255 radiation, suppression of murine graft-versus-host disease, 303
(320–400 nm), effects on barrier characteristics of skin, 758

V

Vacuolar Acidification and Bafilomycin-Sensitive Proton Translocating ATPase in Human Epidermal Langerhans Cells, Girolomoni G, Stone DK, Bergstresser PR, Cruz PD Jr, 735
Vascular responses, digital cutaneous, to histamine and neuropeptides in Raynaud's phenomenon, 314
VCAM-1, 763
Vibrissa follicles, localization of minoxidil sulfotransferase in outer root sheath of anagen pelage and, 65
Vibrissae follicles, mouse, stimulation by minoxidil, 295
Victronectin, tissue, in normal adult human dermis, 747
Vitronectin: Effects on Keratinocyte Motility and Inhibition of Collagen-Induced Motility, Brown C, Stenn KS, Falk RJ, Woodley DT, O'Keefe EJ, 724

W

Water permeability and lipid content of skin and oral mucosa, 123

X

X-ray diffraction
characterization of stratum corneum membrane structures, 215 revelation of oriented structure in human stratum corneum, 43
Xeroderma Pigmentosum, Photosensitivity, and Implications for Black Patients, *letter*, Johnson JA, 156
